Dear Eric,

RE – Approval Vegetation Removal, Transmission Line and Substation for Mt Mercer Wind Farm, Elaine, Victoria (2011/5827)

I can confirm the conditions as per Section 4 of the above document have been satisfied and the construction works have been completed.

To ensure these conditions were met, Powercor Network Services engaged the services of the Department of Sustainability & Environment's Biodiversity Team Leader, Nick Jaschenko to assist in the development of the Project's Environmental Management Plans.

All construction and contractors were inducted to ensure compliance to the Environmental Management Plans prior to the commencement of any on site works.

Let me know if you require further information.

Regards,
